

Tempus Fugit

O arquivo “tempus_fugit_mural” contén tódalas páxinas das táboas cronolóxicas: ordenadas en 9 columnas (1 para cada 3

séculos) e 6 filas (normalmente 2 materias por fila. Debes decidir, en primeiro lugar, a zona do mural que queres imprimir, pois podes reduci-lo a algunhas materias ou algúns séculos. Na nosa opinión, é moi recomendable confeccionalo enteiro, pois aporta unha visión global da Historia que é imposible ter vendo as táboas no encerado dixital ou no ordenador.

A confección deste mural é sinxela:

1º Imprime o arquivo PDF. (Fíxate nas opcións de impresión sinaladas). Emprega, se é posible, papel tipo cartolina

2º Guillotina as follas polas liñas sinaladas

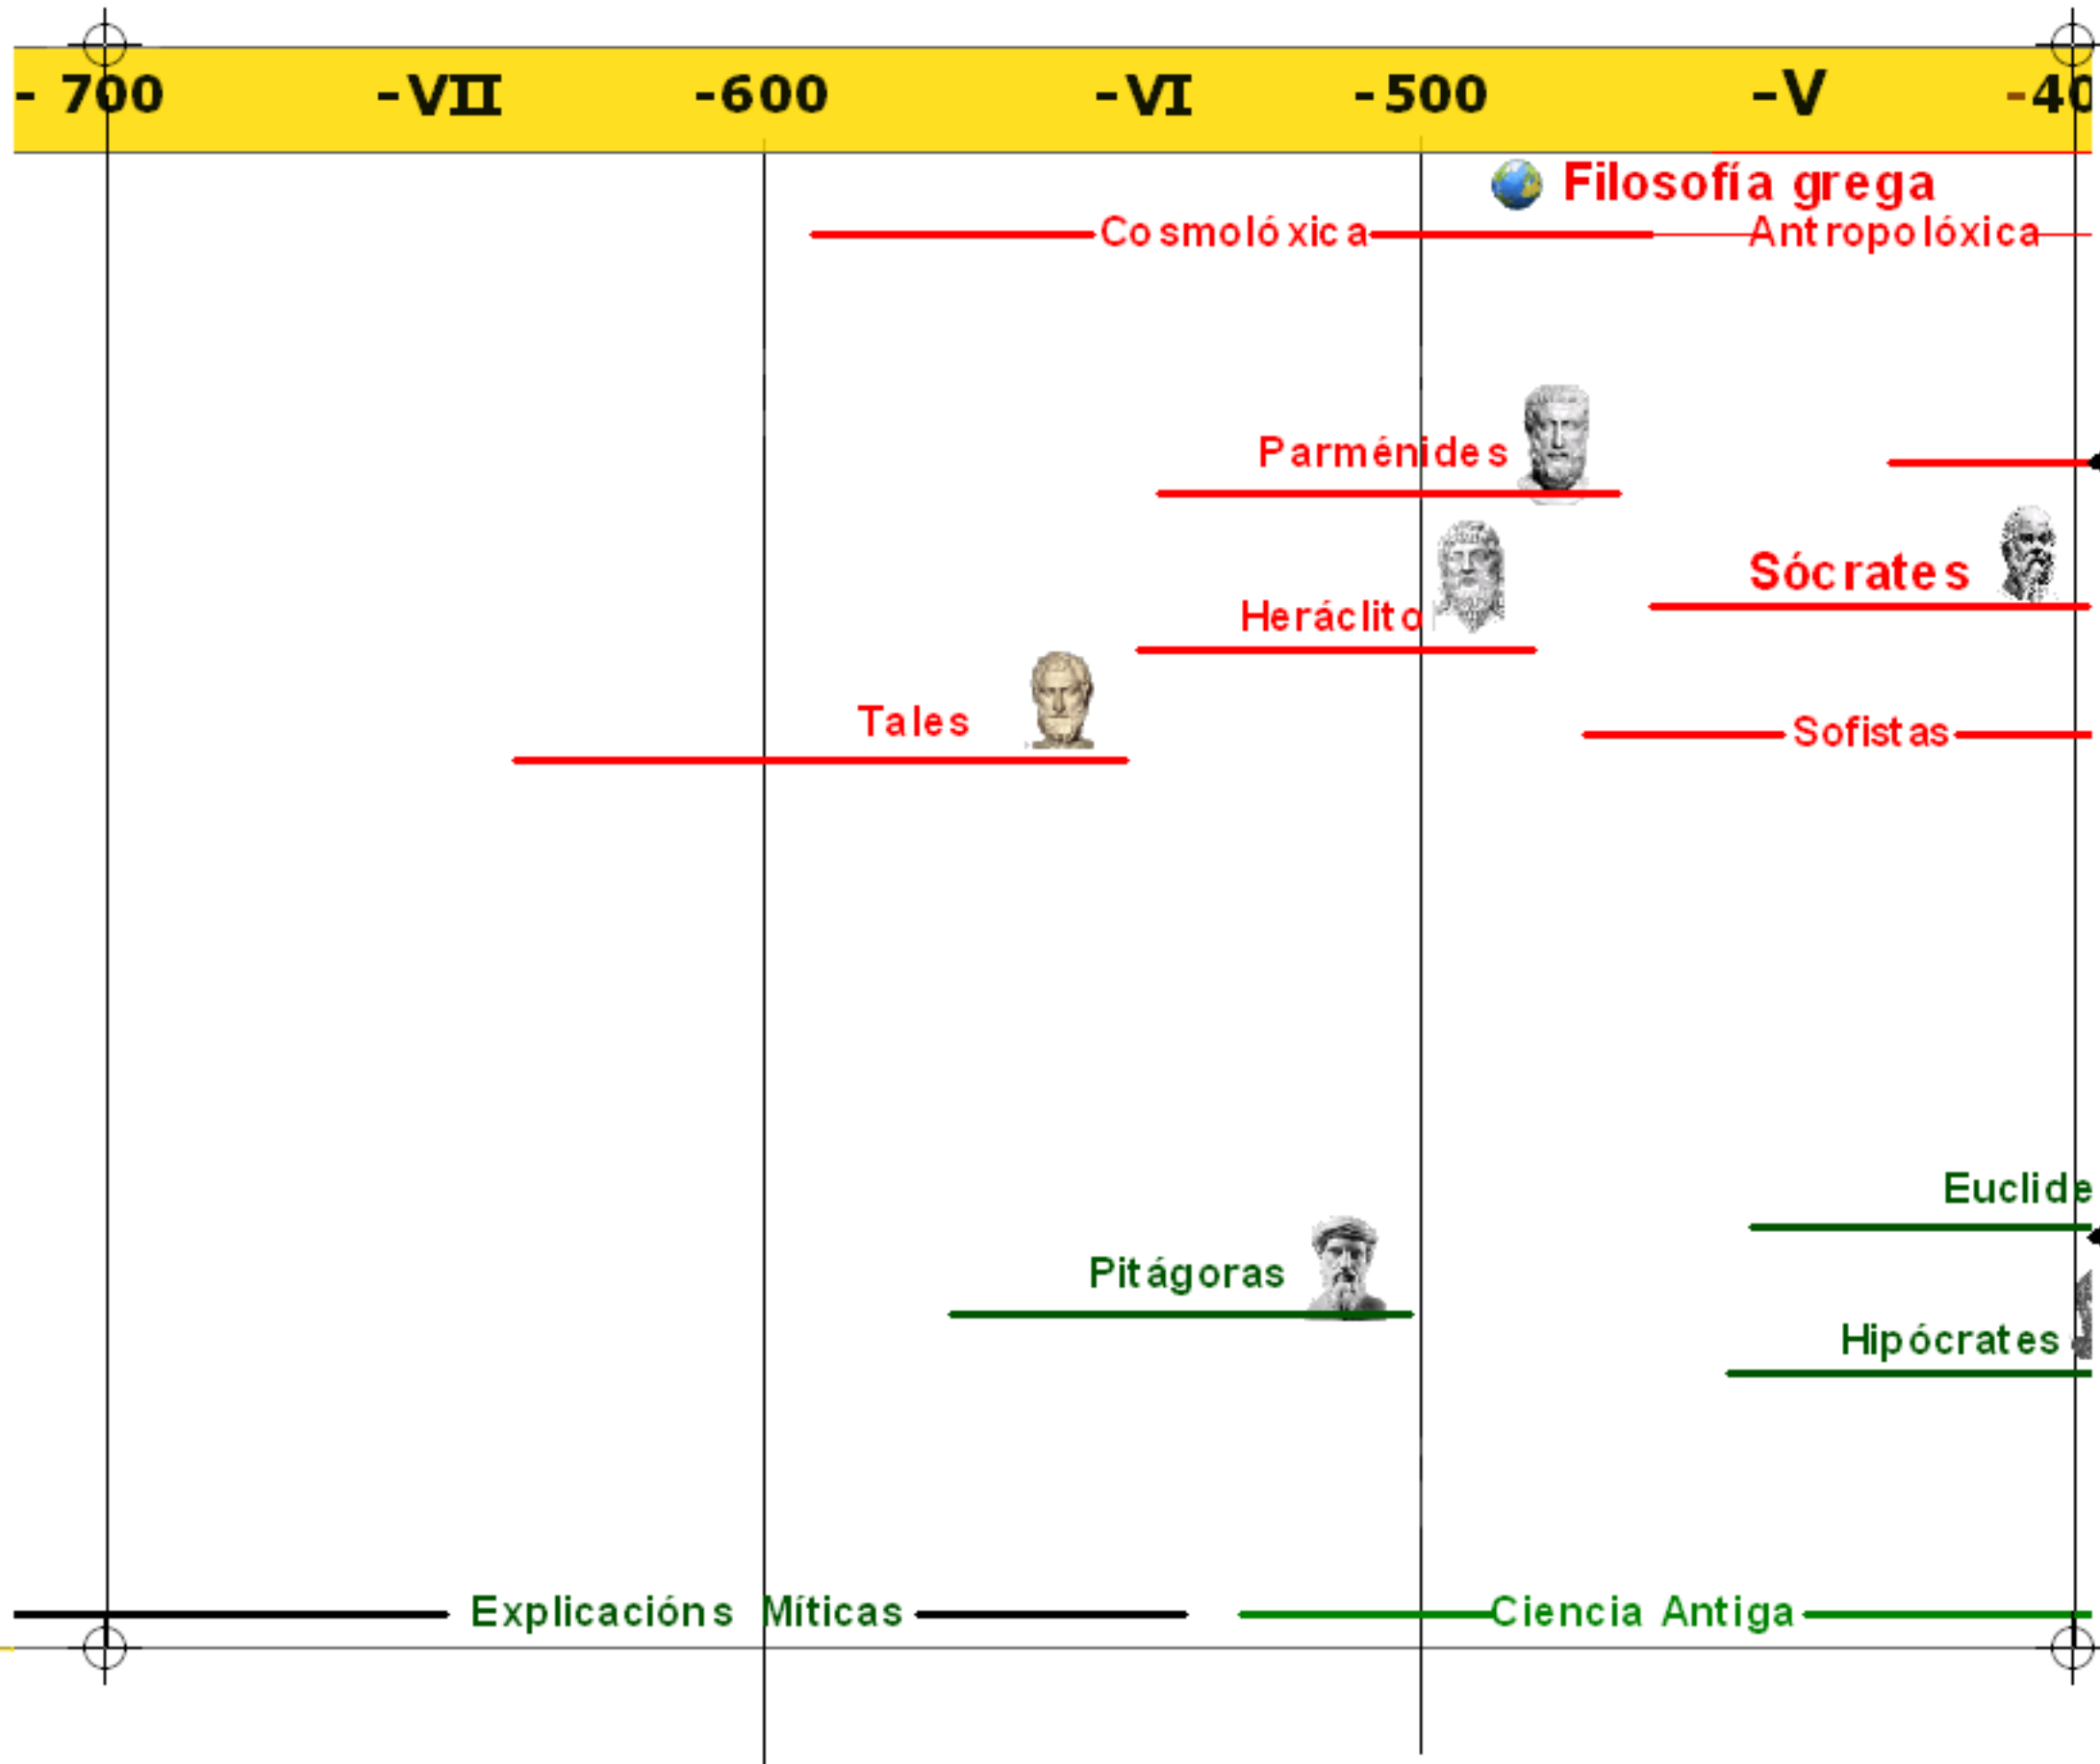

3º Pega unha folla sobre a seguinte solapando as zonas comúns e facendo coincidir os símbolos das esquinas:

Fainos coincidir e comproba que quedan correctamente. Isto é fundamental pois a acumulación de pequenos erros dexenera o mural rapidamente.

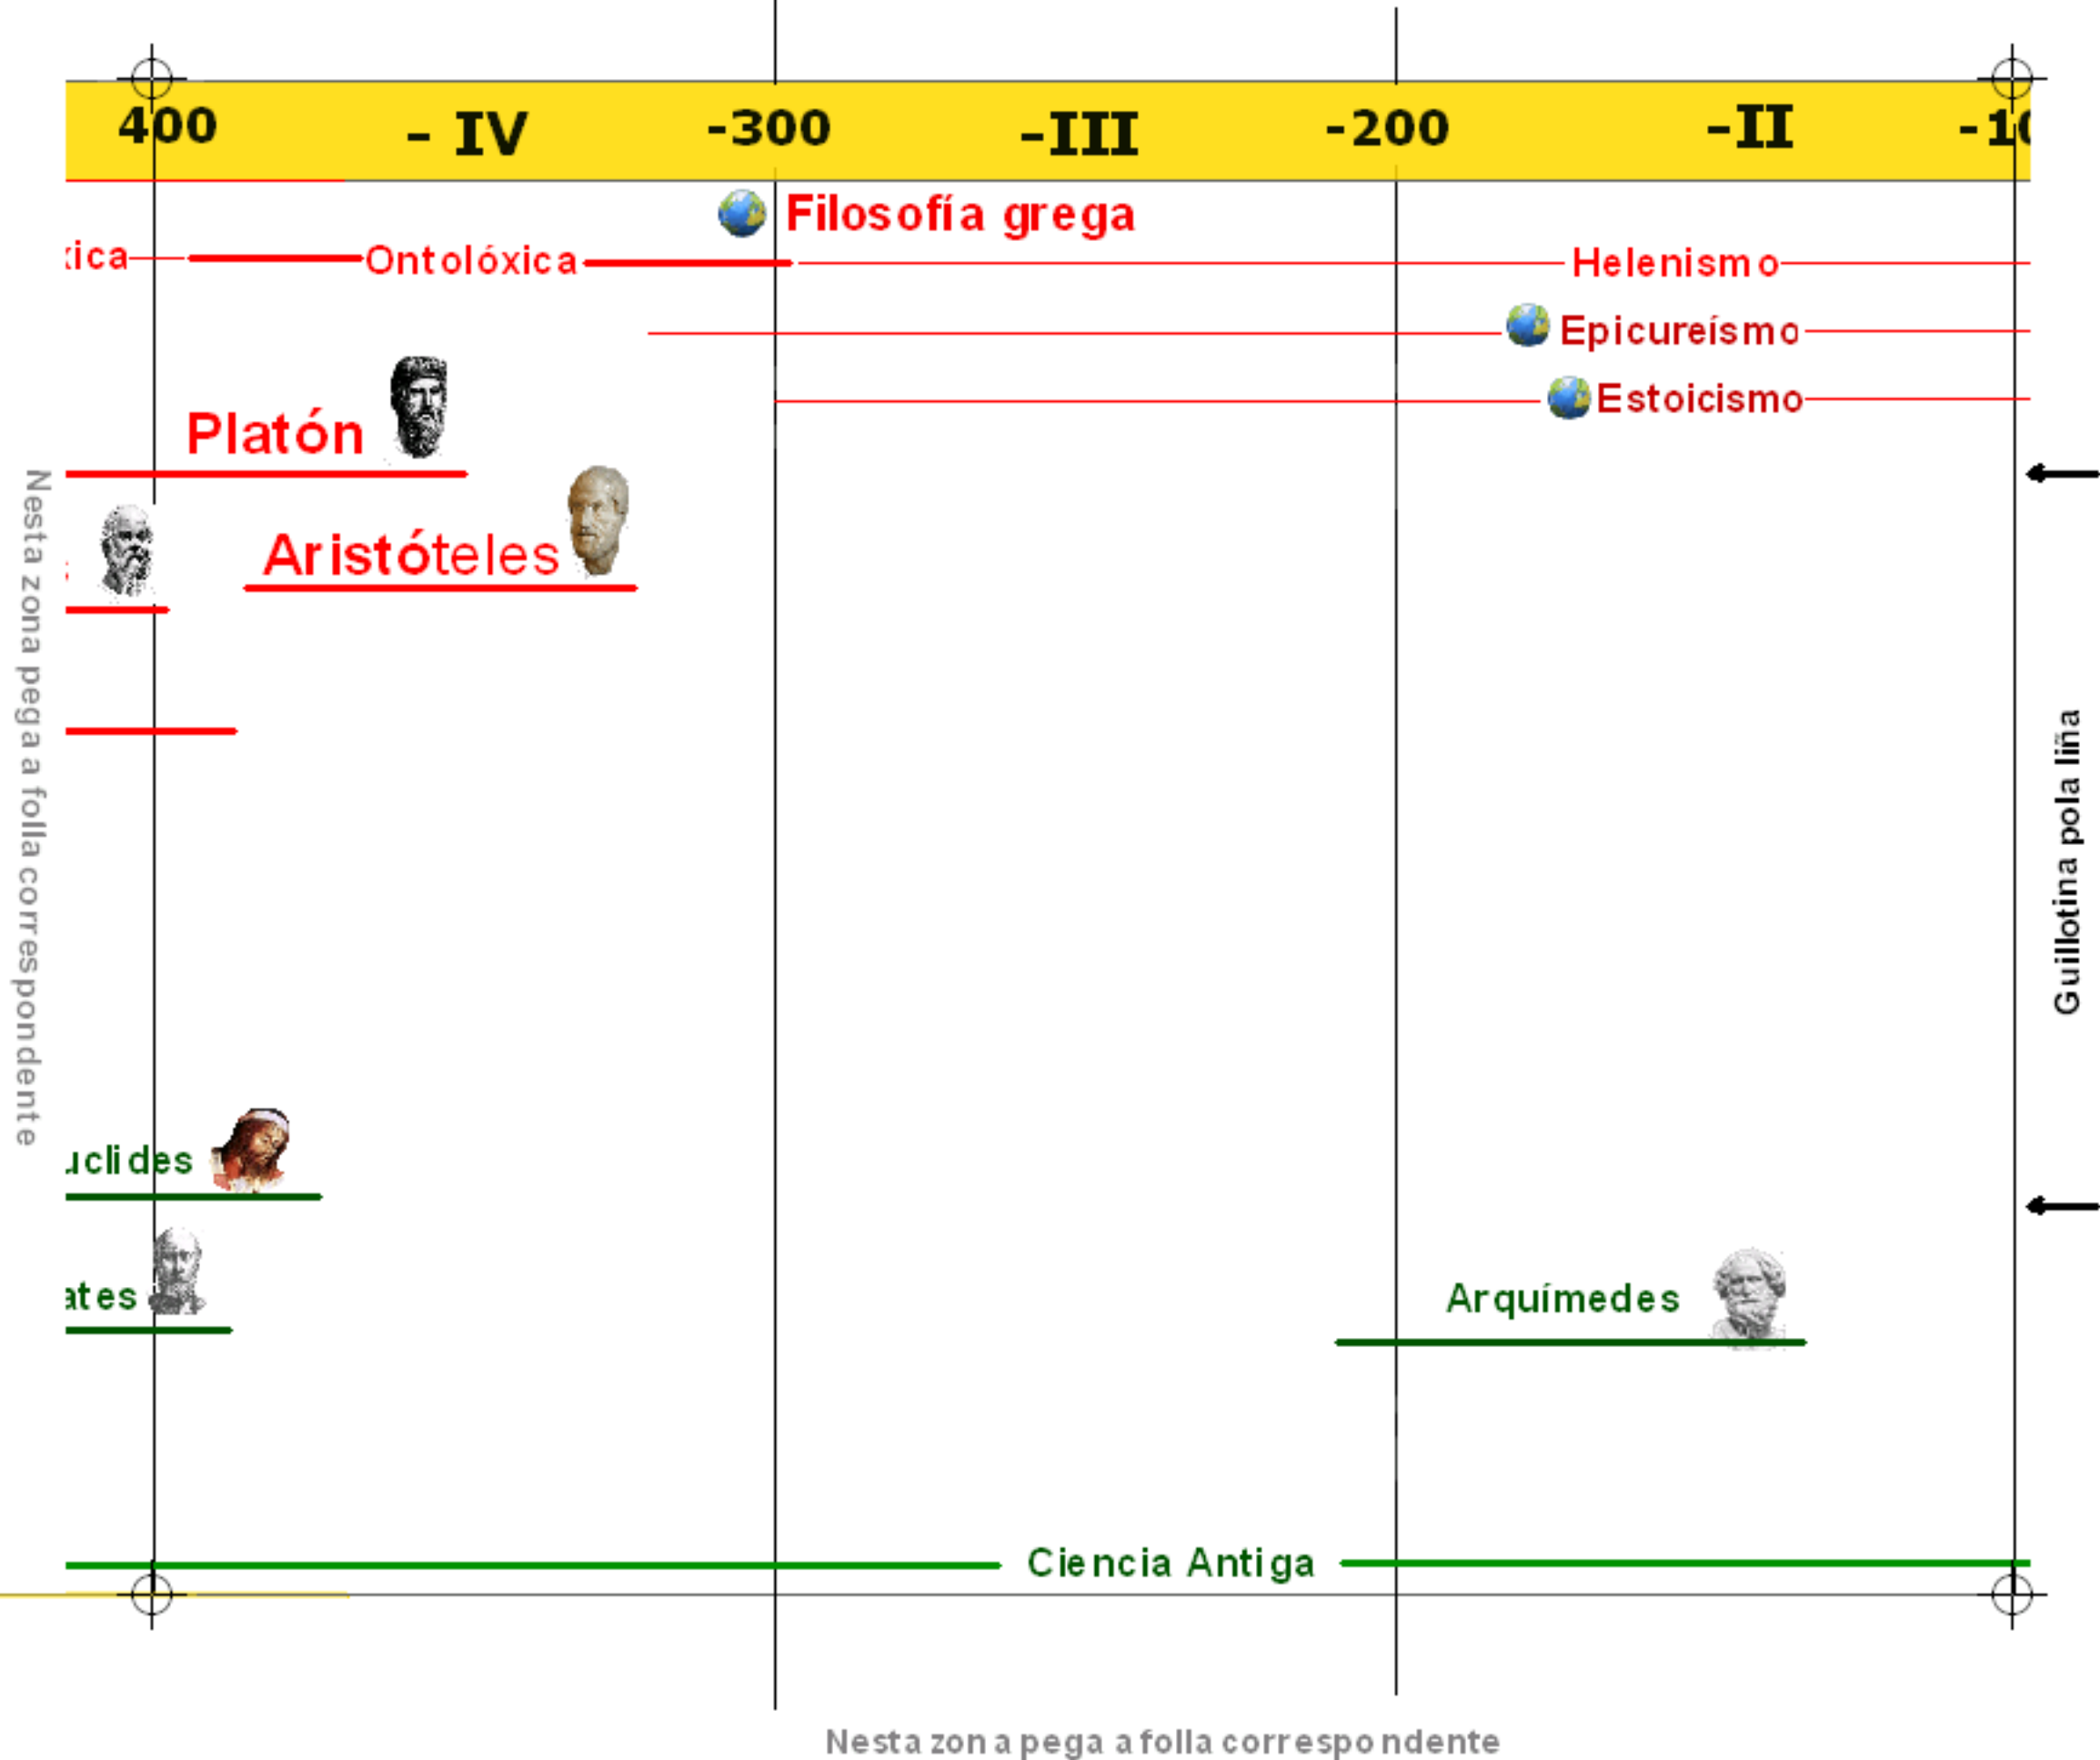

4º Pega a primeira fila completa comezando pola esquerda e despois as seguintes filas comezando sempre pola dereita.

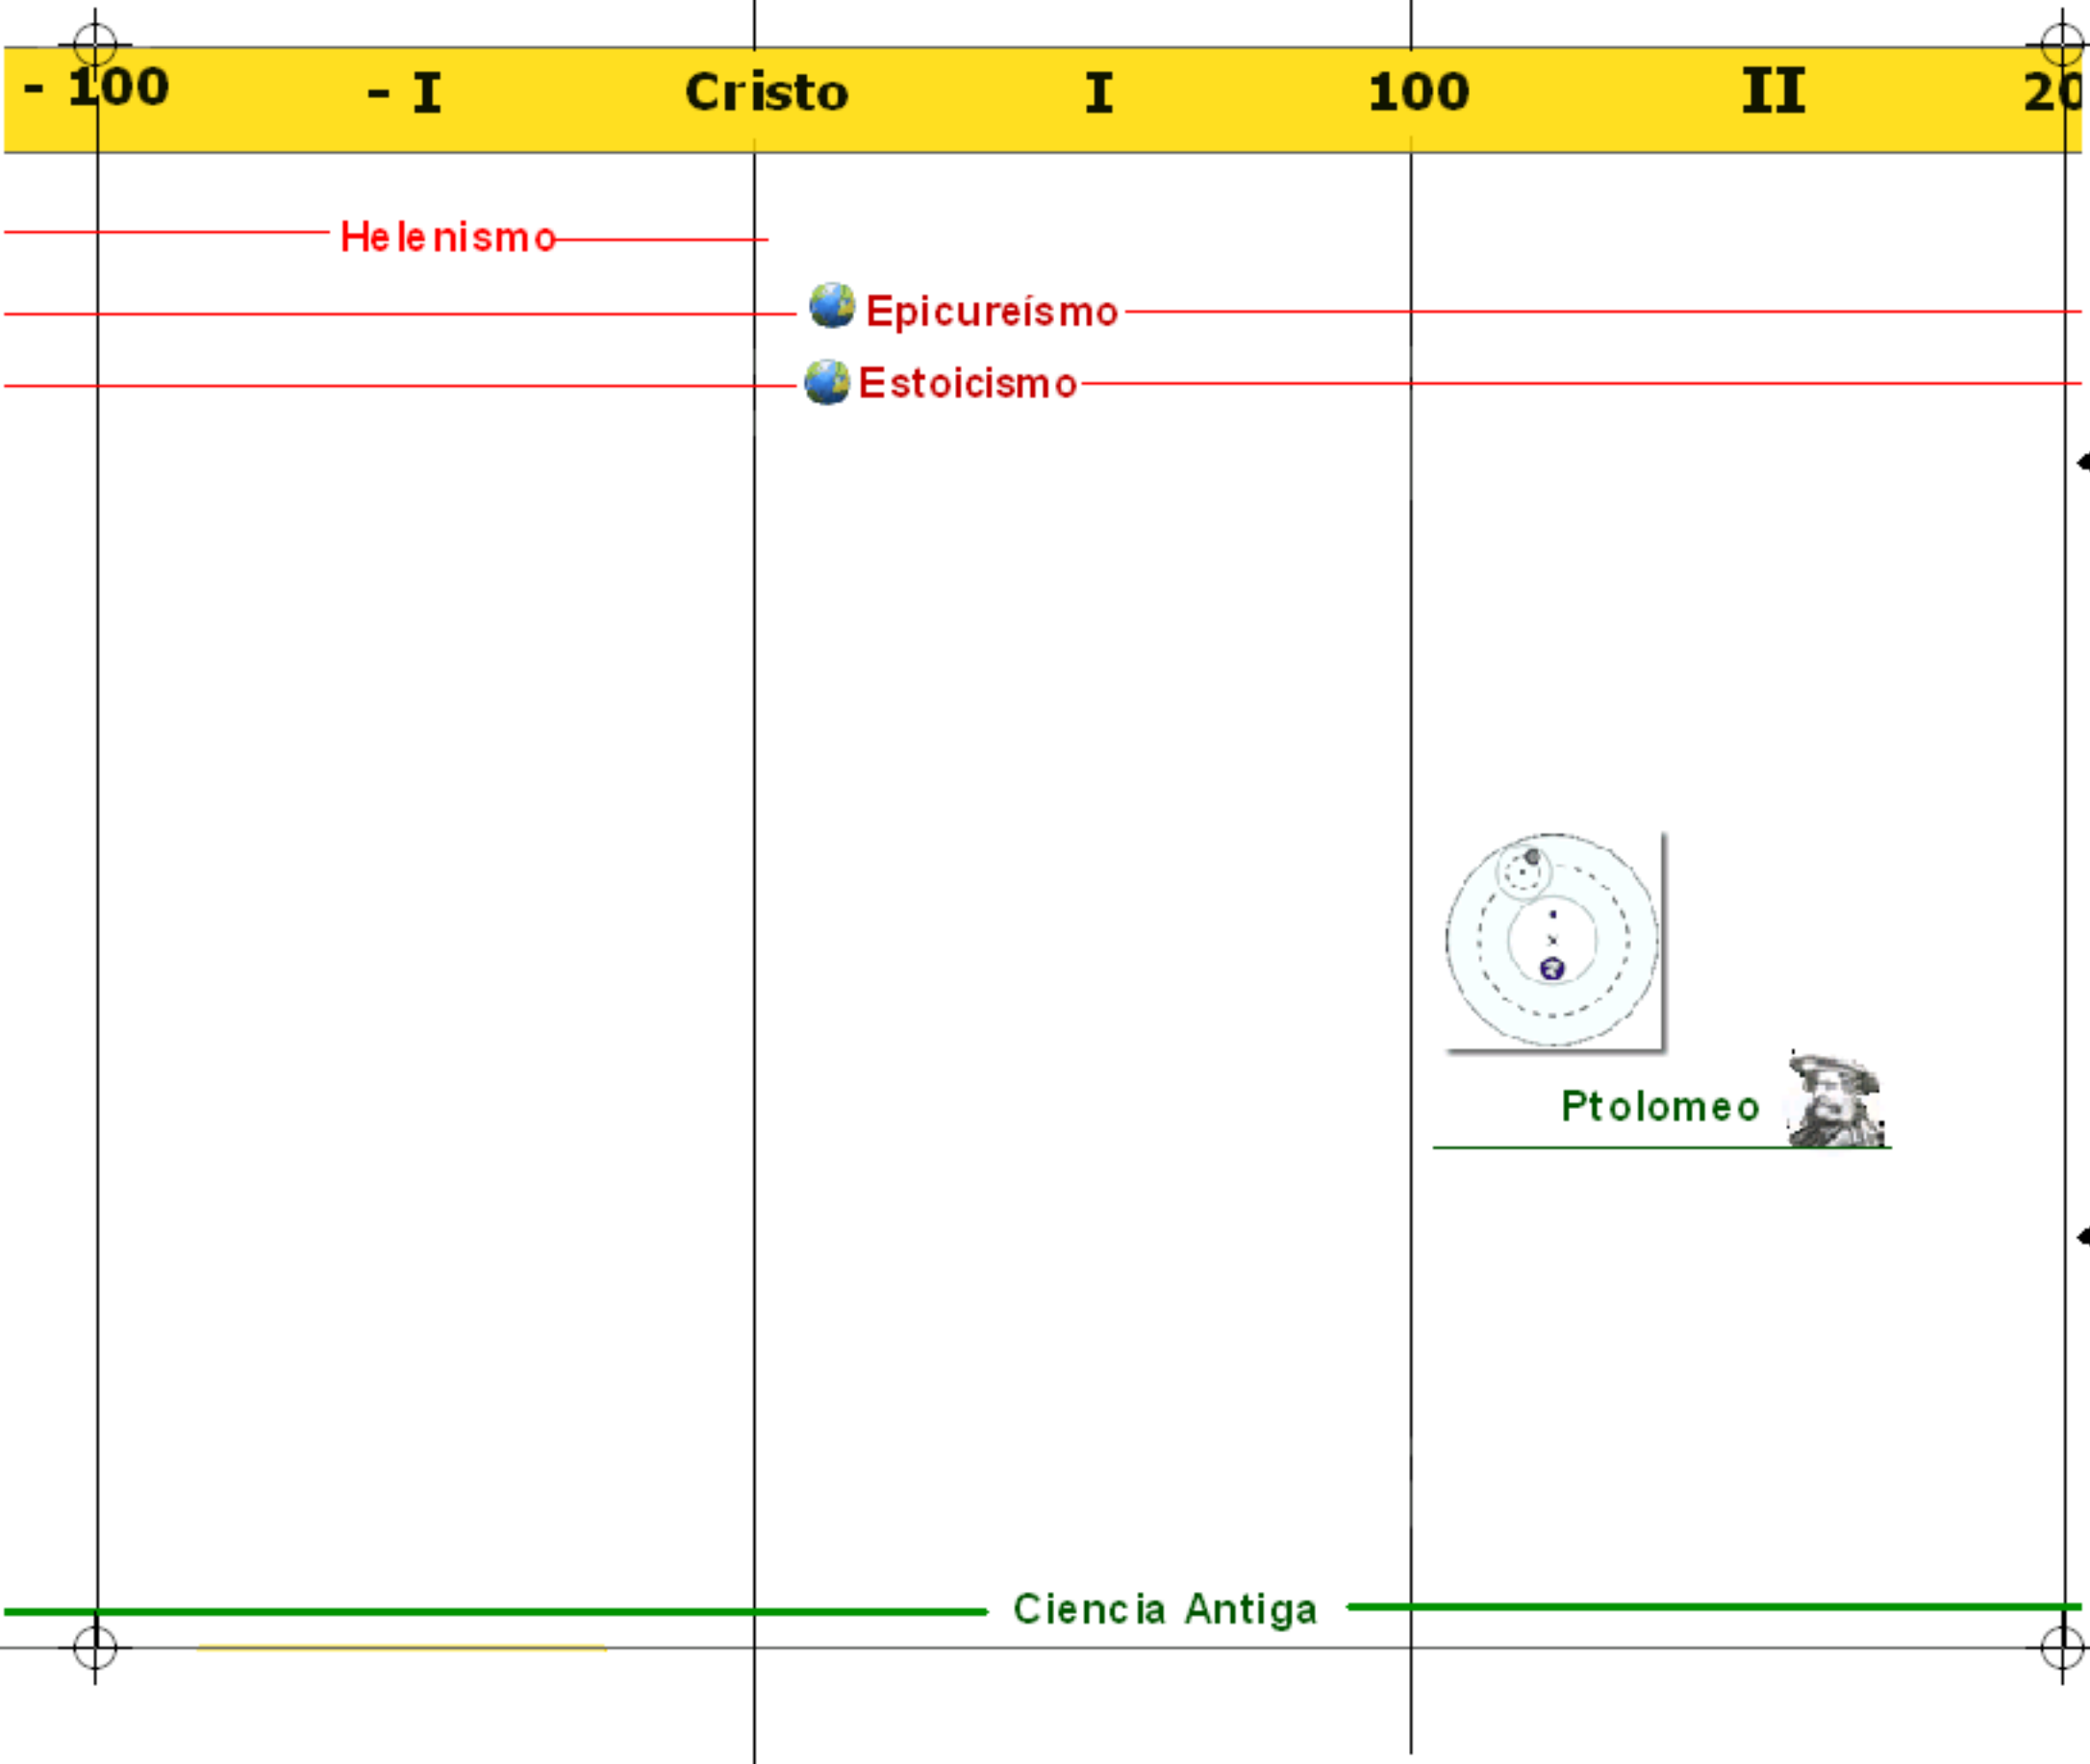

Non é necesario confeccionar un mural para cada aula: elabora un e fotocópialo a gran tamaño nalgunha copistería na que fotocopien planos.
