Recommendation 1

Title: *GREASE*

My favourite film is *Grease*.

It is a musical and it was in cinemas many years ago, in 1978, I think but I watched it at home on TV last week. It's a love story between Sandy, a sweet girl, a Danny, a rebellious teenager. They met during summer holidays and they fell in love but when the school year starts, their different behaviours become a problem.

The acting was fantastic! Olivia Newton John and John Travolta are two of my favourite actors. And the songs and the dancing are absolutely amazing! I don't get tired of watching it!

The ending is really spectacular but I can't tell you what happens. Watch the film and find out!
